

# Certified Practitioners

## Training and Workshops

Discovery Health Solutions LLC-- USA – Established the certification program in 2010 with a decade of workshops originally under the Klinghardt Academy Program, open to medical practitioners and health coaches who have completed all levels of our workshops in Muscle Testing with a thorough knowledge of our core solutions and individualize protocols for patients. The Health Coaches guide patients with at home programs and are connected with practitioners who can assist with the medical concerns.

Certified practitioners demonstrate by written and clinical exam the knowledge and ability to assess a patient accurately in the deepest levels to find the root cause of their symptoms. A certified practitioner participates regularly in our Discovery Health Solutions programs to keep up with the latest protocols and developments inspired by the work of Dr. Klinghardt, Dr. Louisa Williams, Dr Omura, and other great teachers of our time with integrative solutions and modalities used with muscle testing. The DHS Academy is a collaborative of the work of those who practice and learn together.

Each practitioner has his or her own specific modality of treatment with application of muscle testing to their techniques and are licensed to practice under their state guidelines or work with a medical licensed practitioner as a health coach.

Discovery Health Solutions LLC is not liable or responsible for the actions or private practice of those listed. You are advised to do personal research prior to seeing a practitioner.

In 2022 we will continue to certify practitioners with Discovery Health Solutions and those who certify will have access to our online and personal referral program with a Platform on our new website with access to our continuing education and collaboration.

Those interested in Certifying or taking a workshop in the USA please contact us for the schedule:
