

New 2024 Workshops

I have learned when running the Klinghardt Academy from 2010 to 2020, it is common for practitioners to attend several classes to study and practice to become confident and proficient in muscle testing skills. I've also witnessed that our certified practitioners who use muscle testing daily with accuracy for years and have developed their own style and streamlined the techniques and are the ones best equipped to teach on the level necessary to learn and retain the skills. Due to overwhelming interest and questions, we are pleased to offer two spring workshops to help you with your muscle testing techniques and advanced diagnostic skills, along with the Emotional clearing work. Proficiency cannot be attained online. Our recent attendees attest to this. You asked- We listened. It will be well worth your time to come.

INTEGRATIVE MUSCLE TESTING REVIEW DAY- Two date options this Spring

MARCH 2, 2024 and / or APRIL 6, 2024

Fee: \$195

Time: 9am-4 pm

Location: 5930 Hamilton Blvd, Ste 102, Allentown, PA

Instructor: Lisa Baas, L.Om and Team

LEARN The TIPS AND TRICKS from our seasoned practitioners to help YOUR MUSCLE TESTING technique to flow easily and efficiently. At this class you will fine tune your skills to give you the confidence necessary in your assessment outcomes.

Practice and Review your Skills with seasoned Certified Practitioners Guiding you every step of the way – Personally-and in small groups.

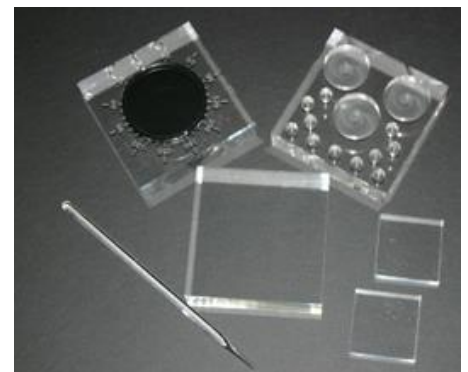

Simplify the overwhelming information into basic concepts to trust your testing outcomes and make your testing flow quicker and easier.

Come together with other practitioners to learn and share. We will review our basic protocols and please come with your questions. This is how you become proficient with your skills. We are here to help you with our group of like-minded practitioners who regularly network together and are accessible to continue supporting you after you have learned with us.

Please bring your own water bottle, snacks and a bagged lunch and your Test Kits, and tools.

We will review these tools in the practice session:

- Polarization Filters, Compass Signal Enhancer
- 2 Vial Hole Signal Enhancers
- 2-3 Mini Signal enhancers
